Love the mobile app it's easy to use and enables me to do all the main function including refund orders easily even if I'm not at the office which is very useful. I receive regular updates on attendees which is very useful.

Bogus! I've purchased multiple events through the web and they never appear on the app. Deleting it.

Hi James! The app you'll want to be using to retrieve your tickets is the Eventbrite app. The Eventbrite Organizer app is designed for event organizers to manage orders placed to their event, as well as the check-in process, so you won't be able to view your tickets here.

I've been a consumer of the arts for a minute and have used and recommended EventBrite for most of them. Now that I'm throwing the events I trust they will meet my guests needs and help me build that 1st interaction seamlessly.
